

WHITE

NO ES PITUKO - Vina Echeverria - CHARDONNAY - Central Valley, Chile - \$42

No filtration, no sulfites, no stabilizers! So, it's pale and slightly cloudy, with intense aromas of banana, apple, pear, and brioche. It is full bodied but bright, and rich with a creamy mouth feel and a little funk thanks to the natty-ness. No oak on this bad boy!

EL PALOMAR - BODEGAS ZARATE - ALBARINO - Rías Baixas, Spain - \$50

Brilliant and clean with a stony tropical pineapple and dried peach tone and a green minerality. Totally what you want to be slugging down on a hot day; this is a great benchmark of this unoaked bright Spanish wine!

SKIN CONTACT (ROSE + ORANGE)

ALBITA - Fundo El Quintanar - ALBILLA / MUSCAT - Canete, Peru - \$92

Straight from Peru! Who knew?! An aromatic, very dry orange wine. 60 days on skins give it an extra slap of funk very similar to the style of Basque ciders. With oral notes, stone, honey, and nuts.

A CONXURA - Adegas Eloi Lorenzo - CAINO BLANCO SPARKLING - Galicia, Spain - \$42 Dry and aromatic with delicate bubbles and notes of honeycomb, cooked apple and butter. This is more of a baby orange wine, not a lot of time on the skins and very clean. Super duper tasty!

BICHI ROSA - Bichi - MYSTERY BLEND! - Baja, Mexico - \$75 (Rare! None left in NYC)

This fine grown-up rose comes from a vineyard comprised of an unidentified grape variety. Which in the end, doesn't really matter as this refreshing rosé shows its place BEE AA UUU Tifully! Aromas of guava, strawberry and watermelon will give you all the tropical vibes you need.

HONORA VERA ROSE - TEMPRANILLO / SYRAH - Murcia, Spain - \$42

Closer to a rosato style, rather than a Provence style. This has a nice acidity while being relatively rich. It's watermelon, bright cherry and herbs all in one. Totally crushable!

RED

BAIRRADA NAT COOL - Niepoort - BAGA - Beiras, Portugal (1L) - \$60

This natural wine has no extras added and has a carbonic, stainless steel fermentation. It's pale red, energetic, lightly funky, and extremely juicy, with aromas of red fruits and Mediterranean soil. Unlike a lot of natural wines in this style, it does undergo some malolactic fermentation, and the acidity is perfectly balanced. Dangerously easy to drink, and excellent with a little chill to it.

SANTA BICHI - MOSCATEL NEGRO - Baja, Mexico - \$80 (RARE!)

Light natty red! Light and energetic with a poppy zing of acid, this delicate oral wine has some additional dark fruit notes

CHILENA CAUQUENES - Huaso De Sauzal - PAIS - Secano Interior, Chile - \$60

A savory and rustic red wine... certainly our biggest and boldest on the menu. This IS a natural wine! So has zero intervention and thus has some funkiness to it (which we love). It is brimming with dark fruit flavors and bold acidity, a bit of saline and a whiff of barnyard.
